OUR STORY

Just over 30 years ago, a handful of surfers made a powerful statement by founding the Surfrider Foundation. The waves they surfed in Malibu, California were threatened by development and pollution. They wanted to protect what they loved, so they organized a group to protest the threats to their local surf break. They took action. Not even they could have envisioned the history they were making when they succeeded in protecting their beloved surf spot.

Today, the Surfrider Foundation protects much more than surfing waves (and you certainly don’t have to be a surfer to join!) but one thing remains the same: our founders were everyday people, like you and me, who took a stand because they loved their beach.

Surfrider has built a network of coastal defenders who transform their passion for our coasts into lasting protection. Bridging local knowledge with national experts in law, policy and science, our formula for success—both the play-book and the team—produces victories for our beaches year after year. Over the last three decades we have a track record of more than 300 victories (since we started counting in 2006!). We don’t just play. We win.

Our focus is 100% on our ocean, waves and beaches. We care for the area where the land meets the sea, with one foot in the sand and another in the water.

Our vision is to keep our beaches open to everyone, promote smart coastal development that avoids coastal impacts, protect special ocean and coastal places before they are threatened, ensure the water is clean to surf and swim in and the beaches are free of plastic litter. You can help us to empower everyday citizens to be leaders in their coastal communities and to become defenders of our coasts.

Our Staff .......................................... 29
Just over a year ago, I was hired as the new CEO of Surfrider Foundation. One of the first questions we asked ourselves was, “How big does Surfrider need to be and why?”

Today, Surfrider has 84 volunteer-led chapters lining all coasts of the U.S. This robust network works to protect our ocean, waves and beaches through strong campaigns and active stewardship programs that include cleaning beaches, planting dunes, testing local waters and planting ocean-friendly gardens.

To determine what was needed to provide full protection, we looked at the areas where Surfrider is strongest. Chapters thrive in regions supported by training on effective grassroots organizing, science and policy expertise, and are able to consistently win important coastal protection campaigns and execute effective stewardship activities.

Perhaps most importantly, properly supported chapters can shift from reacting to threats in order to get ahead of the challenges facing the coast by leading lasting policy advancements.

This winning and incredibly effective model is uniquely executed by the Surfrider Foundation.

Surfrider has an effective blueprint for success, one that turns passion into protection. A model that has shown consistent success over the years and has lead to some of our most successful conservation successes, such as saving the world-famous wave at Trestles or establishing locally supported marine reserves in Oregon.

What would it take to extend this effective model to the rest of the nation and what could we achieve? In other words, what would it take to protect 100% of the coast? After all, isn’t that what we all want? That is how we formed our vision for 100% protection of our coasts, protecting all of our favorite places so they are accessible, the water is clean, our recreational resources (i.e. surf spots) are protected, and our beaches and ocean are healthy.

Surfrider believes that if we can continue to grow our chapter network while providing the organizing, legal, science, and policy expertise to support their efforts, we can get there and fully protect our coastlines.

Today, we are a little over half way there but we know we have a model that works and with your continued support we can achieve our shared vision of 100% protection of our coasts.

Sincerely,

Dr. Chad Nelsen
CEO

A coastal victory is a decision made in favor of the coastal and ocean environment that results in a positive conservation outcome, improves coastal access, or both.

For more information on our victories visit www.surfrider.org/campaigns.
WE TURN LOCAL PASSION INTO LASTING PROTECTION FOR THE COASTS.
Our ocean faces growing challenges from pollution, offshore development and climate change. At the same time, expanding industries, such as offshore oil drilling, threaten to crowd our ocean and degrade its health (and those who call it home!).

Every day poses new threats to our oceans and beaches. Our ocean and special places must be proactively protected before they are threatened and stem the tide before further damage is done to the ocean’s health.

This is precisely why Surfrider built a network of passion-driven people who are on the ground and are the voice for our ocean and beaches. With one foot in the sand and the other in the water, Surfrider is the only non-profit organization 100% focused on our coasts.
OUR INITIATIVES

Ensuring Clean Water
We protect our water resources and prevent pollution along our coasts and waterways through community engagement, water testing, planting ocean friendly landscapes, and by advocating for holistic clean water solutions.

surfrider.org/programs/clean-water

Securing Beach Access
Our beaches mean so much to us. It’s where we live, work, and visit. It’s the entryway to our ocean. We need access to beaches in order to enjoy them. We work hard to ensure that our beaches are accessible for all to enjoy.

surfrider.org/programs/beach-access

Protecting Special Places
Our ocean face growing challenges from pollution, habitat loss, development, and climate change. To protect the ocean we take a proactive approach to marine conservation through four core areas: Marine Protected Areas (MPAs), offshore oil drilling, renewable ocean energy, and marine spatial planning.

surfrider.org/programs/ocean-protection

Preserving Our Coasts
Our network of volunteers address threats like poorly planned coastal development, shoreline armoring, sand dredge and fill projects, and work pro-actively with community planners to address sea level rise.

surfrider.org/programs/coastal-preservation

Preventing Plastic Pollution
Plastic pollution is becoming increasingly abundant in our ocean. We work to educate the public, clean up beach and ocean litter, eliminate single-use plastics, and prevent plastic pollution before it reaches our ocean, waves and beaches.

surfrider.org/programs/plastic-pollution
OUR PROGRAMS

Blue Water Task Force
Our volunteer-run, water testing, education and advocacy program provides valuable water quality information to beach communities, identifies problems with beach and coastal water pollution, works to raise awareness for pollution issues, and implement solutions.

surfrider.org/blue-water-task-force

Ocean Friendly Gardens
Our volunteers help local communities create Ocean Friendly Gardens, that conserve water and wildlife habitat with native plants, restore soil to sponge up rainwater, and filter out pollution and ultimately reduce the amount of polluted runoff reaching the ocean.

surfrider.org/programs/ocean-friendly-gardens

YOUTH CLUB NETWORK
Surfrider Foundation launched the Youth Network in 2008 in response to overwhelming interest across the country from young people that wished to become more involved with the Surfrider Foundation. Our youth network creates a platform to meet the demand by young people for opportunities to influence environmental action through service, development, leadership, civic engagement and organizing by way of collective empowerment of our chapter network.

This network focuses on the development of environmental stewardship projects - at their schools, campuses or local communities. Projects range from beach cleanups, to reducing single-use plastic usage, to creating a more eco-friendly campus.
The Surfrider Foundation Website

The Surfrider Foundation maintains a comprehensive website: surfrider.org. The site provides visitors with an opportunity to keep abreast of current Surfrider Foundation issues, programs, campaigns and victories and offers a wealth of environmental information on our nation’s coastal zones. Additionally, nearly all Surfrider Foundation chapters maintain websites of their own, enabling them to post information on local issues and events. Chapter websites can be accessed directly through the Surfrider Foundation website below.

surfrider.org/chapters

Making Waves

The Surfrider Foundation publishes a monthly digital interactive newsletter, Making Waves. Through its coverage of campaign developments and victories, chapter updates, and environmental and scientific news stories, Making Waves remains one of the Surfrider Foundation’s most effective vehicles in educating and communicating with our members on activities and achievements within the organization. You can find past issues at the website below.

surfrider.org/publications/making-waves

Beachapedia

Beachapedia.org is the Surfrider Foundation’s community-driven online reference tool that catalogs combined coastal science information taken from the Surfrider Foundation activist network and environmental experts. Beachapedia captures relevant and timely information related to the protection of our coastal resources using Wiki technology. With its constant influx of intelligence, Beachapedia serves as a relevant and valuable tool for the general public, media, and decision-making bodies. Beachapedia covers a vast assortment
of topics related to the coastal environment, including articles ranging from coastal access to water quality testing, to seawater desalination.

beachapedia.org

State Of The Beach Report
The Surfrider Foundation’s State of the Beach Report currently resides on Beachapedia. The publication, available online, is continuously updated as new information becomes available, state policies change and important developments in beach health occur in the 31 coastal states and territories now covered by the report. Designed to serve as the “go to guide” for researchers, coastal managers, legislators and activists, the report evaluates the public availability of state-level coastal information, and compares each state’s status on critical beach-health indicators.

beachapedia.org/state_of_the_Beach

Public Relations and Social Media
The Surfrider Foundation National Headquarters Communications team is dedicated to providing the organization with media, public and press relations that clearly communicate the organization’s mission and vision. The team helps communicate the organization’s programs and campaigns and personalizes the Surfrider story through multiple news and feature articles generated for different media outlets. This team initiates and quickly responds to media calls as well as coordinates media opportunities and interviews with Surfrider staff, chapter leaders and volunteers. The team writes news releases to distribute on the national wire, optimized for search engines, and as a tool to pitch news to a variety of print and online publications as well as for broadcast and radio programs. They also make the most effective use of Surfrider social networks including Twitter, Facebook, YouTube, and Instagram by engaging with supporters and followers, posting organizational updates, answering questions, and providing resources. They are also a resource for staff and chapter leaders who need assistance with public relations and social media.

Action Network
With just a click of the mouse, activists can make their voices heard. Through the Action Network, the Surfrider Foundation mobilizes activists by email, inviting them to weigh in when it counts by sending a personalized message or petition to key policymakers – locally, nationally or around the world. A personalized letter is included simply by replying to said email or by clicking on the website. The Action Network does the rest, sending handcrafted email messages to elected officials, corporate leaders, and other important decision makers.
WAYS TO GIVE

We hope the information provided below will be helpful as you consider making a contribution to the Surfrider Foundation while possibly receiving tax and financial benefits.

Current Gifts

Cash
A gift of cash is the simplest and most popular gift to the Surfrider Foundation. It provides immediate support for our mission-related work and gives the donor a charitable income tax deduction in the year of the gift.

Securities
Gifts of appreciated securities are an excellent vehicle for giving to Surfrider. If you have appreciated securities that you have owned for more than one year, you may want to consider using such an asset to make charitable gifts. When a gift of long-term appreciated securities (securities held for more than a year) is made directly to Surfrider, there is no tax on your capital gains, even though the gain is counted as part of your charitable deduction. To receive the greatest tax benefit, gifts of appreciated securities should be made directly to Surfrider, rather than selling them first and making a donation of the proceeds (you would then have to pay tax on the gains).

If your gift of appreciated stock, combined with other gifts, exceeds 30% of your adjusted gross income—the maximum deduction allowed for most appreciated securities gifts—the excess might be carried forward for five additional years. The value of the gift is based on the date the transfer of shares is complete.

Future Gifts

In addition to these current gifts, individuals may make contributions to the Surfrider Foundation through one or more of the following planned giving opportunities. Maximizing your gift and participating in planned giving are wonderful strategic ways to leave the legacy of a healthy ocean environment and help secure the work of the Surfrider Foundation into the future.

We would be happy to show you the potential benefits to you and/or your heirs of a planned gift supporting our efforts. Such a consultation creates absolutely no obligation on your part and all information is completely confidential.

Individual Retirement Account (IRA)
Naming the Surfrider Foundation as a beneficiary of your IRA is a very tax-efficient way to make a charitable gift. In fact, retirement plans and IRAs should be the first asset considered in planned giving. This is because retirement funds have never been taxed. So, when you make a withdrawal from your IRA or retirement plan you must pay taxes on it as ordinary income. At your death, whatever remains in these plans does not escape taxes and is actually subject to both income tax and estate tax. In the highest estate tax bracket this could reduce the value of your retirement funds by 70 percent or more! Making a gift via your IRA or retirement plan is simple to do and can be changed if your financial or estate plans change.

Life Insurance
Naming Surfrider Foundation as a beneficiary of your life insurance is a simple way to provide support without giving up current assets. You may also create a new policy or transfer ownership of your existing life insurance policy to Surfrider Foundation and receive an immediate charitable gift deduction. If you continue making premium payments to maintain the policy, those payments are tax deductible.
Bequests
You can establish a legacy that will reflect your commitment to the coastal environment by including the Surfrider Foundation in your will or living trust. Bequests to Surfrider are generally exempt from federal or state inheritance taxes, and subject to an unlimited deduction.

The simplest way to make a bequest is to add any of the following to your will or living trust:

Percentage: I give the Surfrider Foundation Global Office, located in San Clemente, California, % of the residue of my estate (for the support of ___________ program) or (to establish the ___________ fund) or (for its general purposes).

Dollar Amount: I give to the Surfrider Foundation Global Office, located in San Clemente, California, the sum of $______________ (for the support of ___________ program) or (to establish the ___________ fund) or (for its general purposes).

Specific Property: I give to the Surfrider Foundation Global Office, located in San Clemente, California, my interest in ___________ (describe the property and the exact location) (for the support of ___________ program) or (to establish the ___________ fund) or (for its general purposes).

Please consult with us, and your financial and tax advisors, in selecting a program or specific target for such a bequest.

Charitable Remainder Trusts (CRT)
A charitable remainder trust can be used to bypass capital gains taxes on the sale of highly appreciated assets, generate an increase in income, receive a charitable income tax deduction, and help you fulfill your philanthropic objectives. Typically, property or money is donated to Surfrider, but you, the donor, continue to use the property and/or receive income from it while living. The beneficiaries receive the income and Surfrider receives the principal after a specified period of time. You avoid any capital gains tax on the donated assets, and you receive an income tax deduction in the year the trust is created. In addition, the donated asset(s) are removed from the estate, reducing subsequent estate taxes. While this contribution is irrevocable, you may have some control over the way the assets are invested, and may even switch from one charity to another (as long as it’s still a qualified charitable organization). CRTs come in two main types: charitable remainder annuity trust (which pays a fixed dollar amount annually) and a charitable remainder unitrust (which pays a fixed percentage of the trust’s value annually).
Charitable Lead Trust
Some individuals would like to have use of their gift now, while reserving benefits from the gift for family members for later. Charitable lead trusts are essentially the opposite of Charitable Remainder Trusts. In this type of gift a donor contributes property to an irrevocable trust. The trustee pays an income to the charity for the donor’s lifetime or a specified time period. At the end of the term the trust property is distributed either back to the donor or to the donor’s heirs. The primary advantage of this arrangement is that the property contributed to the lead trust is valued for estate and gift-tax purposes as of the date of the contribution. For assets that are likely to appreciate substantially in value over time, a donor may wish to remove it from their estate now by contributing it to a lead trust.

Charitable Gift Annuity (CGA)
With a charitable gift annuity you, the donor, will receive fixed payments, based on your age, for the rest of your life. These payments are partially tax-free, plus you will receive an immediate tax deduction in the year you fund the annuity. If you create your annuity with appreciated assets you will also avoid immediate capital gains taxes. When the annuity matures, the remainder passes to Surfrider Foundation. The minimum age for an immediate CGA is 55. Others may consider a deferred CGA.

Other Giving Options
Workplace Giving
The Surfrider Foundation is a member of EarthShare, a nationwide network of the most respected environmental and conservation organizations. EarthShare partners with employees and employers across the country to support hundreds of environmental groups through efficient and effective payroll deduction giving and offers a simple way to care for the environment.

Workplace giving is probably the easiest way to make a charitable gift. If your company offers an EarthShare workplace-giving program, you can choose an amount that you wish to have deducted from your paycheck each pay period. These payroll deductions are fully tax deductible and take place automatically.

Through EarthShare’s workplace giving programs, you can elect to contribute only to the Surfrider Foundation or you can donate to all of the environmental and conservation charities you normally support by designating them in your EarthShare gift. Federal employees and military personnel can get involved too. Each year the US government offers its employees the chance to participate in the Combined Federal Campaign (CFC). Surfrider’s CFC code is 10642. EarthShare is a part of many state and municipal government agencies’ giving programs as well.
If EarthShare is not offered in your campaign, or if there is no campaign at your workplace, you can help us introduce the program to your employer.

**Employer Matching Contributions**

Many employers sponsor matching gift programs and will match any charitable contributions made by their employees. Some corporations set aside millions of dollars for matching gifts each year and only a small portion of the funds are ever used. Most companies match dollar for dollar, and some will even double or triple match your gift. To find out if your company offers gift matching, please contact your human resources department.

**Tributes and Memorials**

Honor someone’s accomplishment or memory, celebrate a friend’s birthday or recognize an individual’s achievement with a tribute or memorial to the Surfrider Foundation. Tribute or memorial acknowledgement cards are sent directly to the recipient to recognize your gift in their honor. You receive a letter for tax purposes and honor a friend while supporting Surfrider at the same time.
THE OCEAN BELONGS TO ALL OF US
2014 CORPORATE PARTNERS

The Surfrider Foundation would like to thank the following companies whose support enables us to protect and preserve our world’s ocean, waves and beaches.

Dillon Henry Memorial Endowed Fund Donors
Created in 2007 by Harriet Zaretsky and Stephen Henry, the Dillon Henry Memorial Internship was created to honor their son Dillon’s memory, recognize his commitment to the oceans and coastal environment and to help young people to pursue a career in coastal and marine conservation. The Endowment provides funds on an annual basis for two interns working with Surfrider Foundation’s Environmental and/or Legal Departments. The Henry Family welcomes additional donations to the fund. For more information please visit dillonslist.org.

Legacy Circle Donors
The Legacy Circle recognizes and honors those who have included Surfrider Foundation in their financial plans. They have done so by naming Surfrider as a beneficiary to wills, living trusts, IRAs, life insurance and other life-income gifts or have made an outright gift to the Surfrider Foundation Endowment Fund.

If you qualify for membership in the Legacy Circle, or would like to learn more about becoming a member, please contact Surfrider Foundation’s Director of Development.

We thank those who notified us in 2013 of their planned giving, enabling us to protect the world’s oceans, waves and beaches now and in the future.

Workplace Contributions
The Surfrider Foundation thanks the many individuals who have supported our work through payroll deductions via EarthShare. For more information about adding an environmental option to your company’s workplace giving campaign, please visit earthshare.org
2014 BOARD OF DIRECTORS

Chair
Liisa Pierce Fiedelholtz

Vice Chair
Walter Wilhelm

Secretary
Meridith Blascovich

Board Members
Meg Caldwell
Steve Combs
